

Does Resveratrol Really Work?

The truth exposed about this anti-aging nutrient that claims to help put an end to:

- Heart problems
- Blood sugar imbalances
- Poor memory
- Low energy levels
- High cholesterol
- Premature aging

Are Harvard University... the Mayo Clinic... and other prestigious universities and research centers really *RIGHT* about the anti-aging power of *resveratrol*—or are you being bamboozled?

By Layne Lowery
Co-Founder & President, Health Resources™

Dear friend,

What I'm about to reveal to you is NOT science fiction...

...It's NOT fantasy...

...And it's definitely NOT something that's far off in the future either...

...I'm talking about a revolutionary new breakthrough Harvard University hails as, "*the most phenomenal discovery since antibiotics*"...

...Mayo Clinic calls it, "*the best thing since sliced bread for human beings*"...

...And scores of other prestigious universities and scholarly journals are uncovering numerous ways this landmark nutrient can help **ATTACK** blood sugar problems... promote heart and circulatory health... and boost your energy levels! That's because...

...This tiny molecular discovery is giving anti-aging and longevity researchers a

powerful tool to help...

- Maintain your cells—and keep them healthier and stronger longer!
- Increase your lifespan—and more importantly—your health span—by **DECADES!**
- Address “old age” health concerns—including blood sugar imbalances... memory loss... and cholesterol problems—just to name a few!
- And slow the aging process to a snail-like C-R-A-W-L!

Can you really add DECADES of healthy living to your life with this tiny nutrient?

Scientific proof says ABSOLUTELY!

In the late 1980's, researchers at the University of California's Irvine and San

Next page please...

Francisco campuses and at the Massachusetts Institute of Technology (MIT) made a series of molecular breakthroughs.

They uncovered specific sets of genes in laboratory animals that kept cells from wearing out... from being overwhelmed by free radical damage... and from self-destructing after the reproductive phase.

Scientists were amazed when it soon became evident that a **single gene could literally alter the rate of aging.**

They called it the “survival” gene.

Later this gene was named “SIR2 or Sirtuins”—short for “Silent Information Regulator 2 Proteins.”

Like a switch—Sirtuins “turn on” and “turn off” specific gene action as needed. Yes—they help regulate the entire metabolic process!

Scientists then discovered you could activate the Sirtuin genes when you severely restricted calorie intake. In their research—they found giving mice a nutritionally balanced diet, but with extremely few calories, **INCREASED THEIR LIFESPAN dramatically!**

They saw Sirtuins literally kick into overdrive under conditions of severe stress—like major calorie restrictions. **Further studies showed the amazing effect of Sirtuins**

“Aging is really a set of health problems. And if we slow them down, people will live longer.”

—Dr. David Sinclair,
Harvard University

wasn't limited to mice. Restricting calories produced similar results in single-celled organisms... plants... and even mammals!

Now, I'm sure you'll agree with me that starving yourself to live longer is just not too appealing! Scientists were stumped and couldn't overcome this major roadblock.

Fast forward 20 years...

A group of researchers led by Harvard University scientist, Dr. David Sinclair, discovered a powerful antioxidant—found naturally in the skin of red grapes—can actually activate the “survival gene”—without calorie restriction!

Now these scientists were on to something meaningful for you and me! In fact...

...In a major announcement to colleagues and the media—Dr. Sinclair revealed: *“We've found a gatekeeper of cell survival and potentially of the aging process itself.”*

The name of this amazing antioxidant nutrient?

It's called **Resveratrol!**

Resveratrol kick starts the “survival gene” into action—and much more!

Scientists discovered resveratrol “turns on” Sirtuin genes to help:

- Repair damage to DNA!
- Promote healthy cell activity!
- Lengthen cell life!
- Metabolize glucose and encourage insulin balance in cells!
- Maintain healthy cholesterol levels!

But that's not all...

Resveratrol also “turns off” the bad genes that:

- ✓ Produce LDL (bad) cholesterol!
- ✓ Interfere with healthy cell division—and shortcut healthy cell life!
- ✓ Promote dangerous inflammation!
- ✓ Overproduce insulin!

When other leading scientists confirmed these findings—the news about resveratrol spread like wildfire...

...**Barbara Walters of ABC News** reported—thanks to resveratrol—“Living well past 100 could actually be possible”...

...**CBS News** broadcasted: “We may all soon be taking a pill that could give us an extra decade or two of healthy old age”...

...And **Newsweek** boldly exclaimed, “Aging as we know it may not be inevitable!”

And the scientific proof about resveratrol keeps pouring in...

Harvard University—

“Turns fat mice into rodent versions of Lance Armstrong!”

Recently scientists at Harvard University made headlines when they kept overfed mice from gaining weight... turned them into “Olympic marathon athletes”... boosted their energy, strength, and endurance... and slowed their aging process—just by giving them resveratrol!

And a new study published in the journal *Nature* shows mammals given high amounts of resveratrol can get the good effects of calorie reduction—without actually cutting back on their foods!

International Journal on Tissue Reactions—

“Resveratrol may inhibit abnormal blood clotting by a whopping 78.5%!”

“Researchers discovered resveratrol was able to lower platelet aggregation to prevent blood clots by 50.3%. But when researchers added resveratrol to red wine—the ability to block abnormal blood clotting shot up to a whopping 78.5%! These results suggest that the anti-aggregating activity of resveratrol is related to its concentration in wine.”

Beyond the “French Paradox”...

THEN: November 17, 1991

CBS TV Program *60 Minutes* report on “The French Paradox.”

The broadcast claimed the French ate almost 40% more grams of fat from animal sources per day than Americans... four times more butter... 60% more cheese... and nearly three times more pork. Yet the death rate from heart problems was HALF of what Americans experienced. The surprising source of “The French Paradox?” **Red wine!**

NOW: May 13, 2009

ABC News correspondent, Barbara Walters—in an interview with Harvard University biologist, Dr. David Sinclair—goes BEYOND “The French Paradox”

and credits the discovery of a miracle molecule that defies aging!

Dr. Sinclair claims, **“We stumbled on a molecule found in red wine that switches on the gene that controls the aging process.”**

It’s called resveratrol—and it’s now being hailed as the anti-aging nutrient of the millennium!

Advanced ResV Plus™ contains a very high quality pharmaceutical grade resveratrol in every serving! And now you can try this amazing anti-aging formula 100% RISK-FREE. Just see page 7 for details.

Other studies from the Institute of Anatomy at the University of Milan, Italy, Shanghai University of Traditional Chinese Medicine, and Life Sciences confirm similar phenomenal results!

UCLA School of Medicine— “Helps maintain healthy cells!”

Several studies show resveratrol can exert antioxidant and anti-inflammatory activities. Resveratrol has also been examined in several model systems for its potential effect on cell health.

It works to safeguard your cells and helps head off damage that occurs as your cells age.

And the Hormel Institute at the University of Minnesota and Osaka Kyoiku University in Japan are equally excited about the research they've uncovered about resveratrol's remarkable ability to keep your cells healthy!

Biological immortality... it's not science fiction— it's here, my friend!

With the scientific research to support its anti-aging claims—it's no wonder pharmaceutical company GlaxoSmithKline snatched up Dr. Sinclair's resveratrol research company

“Resveratrol health benefits are an important aspect to modern medicine and overall human health...”

—Oxford Journal and the Federation of American Societies for Experimental Biology

for a whopping \$750 million.

Sounds like a lot of money, right?

Hardly!

That's just a drop in the bucket considering this pharmaceutical giant stands to rake in BILLIONS-of-dollars once they fine-tune the process to turn resveratrol into a high-priced patented drug—and they will—in your lifetime!

But why wait another five... seven... ten years or more—when you can get the benefits of resveratrol right now—and without any of the side effects bound to come from prescription drugs?

That's why I want to introduce you to **Advanced ResV Plus™**—a superior resveratrol formula available exclusively from Health Resources™!

Advanced ResV Plus™ gives you superior antioxidant support for every cell in your body—and here's why this is critical:

Take an apple and cut it in half. Leave one section on the kitchen counter, put the other piece in a plastic wrap, and put it in the fridge.

Within a short time—you'll notice the apple on the counter turning brown. That's called oxidation—caused by exposure to air and free radical damage.

What happens to the apple is the same thing that happens to your cells. With every breath you take, your cells are bombarded by free radicals, causing them to literally “brown out”—or rust away—just like the apple on the counter!

It's antioxidants—like resveratrol—that can quickly neutralize free radicals to help prevent the rust... promote healthy cell growth... and even extend cell life!

Taking Advanced ResV Plus™ is like coating your cells and keeping them fresh and healthy LONGER—like the apple slice that's still fresh in the fridge! There's no doubt that resveratrol is a powerful breakthrough in anti-aging—that's why you get high-grade pharmaceutical quality resveratrol in every serving of

Advanced ResV Plus™. But Advanced ResV Plus™ gives you more—much more...

“Identical Sister” nutrient now proven to REV UP the power of resveratrol!

USDA's Agricultural Research Service revealed a new discovery that can significantly BOOST the benefits of resveratrol.

They uncovered an “identical sister” nutrient—also found in the skin of red grapes and berries—that works together with resveratrol to enhance its health benefits! For you—that means:

- More ANTIOXIDANT support!
- Regulating LDL (bad) CHOLESTEROL!
- Keeping your mind and memory SHARPER!
- Regulating BLOOD SUGAR levels!
- Better cell health—so you LIVE LONGER and HEALTHIER!

It's called **Pterostilbene**—pronounced “tare-oh-STILL-bean”—and it's proving to be a powerful catalyst for health and rejuvenation! Here's why...

Studies performed by chemist Agnes Rimando, Ph.D. of the *Natural Products Utilization Research Laboratory* and printed in *Agricultural Research* magazine report

What People Are Saying About Advanced ResV Plus™!

“I've only taken Advanced ResV Plus™ a short time, but I feel like a new person. I do my own housework and my own shopping. It is everything you say it is. This is from a 90 year old lady. I feel great.”

—Mary C., Greenwood, MS

“This is my first time using Advanced ResV Plus™. I have circulation problems with my legs. Since, using it, I feel much better. My legs don't hurt me. I live in New York City and do a lot of walking. I also feel my strength is coming back and I could get more things done. Thank you for your product.”

—Rita D., Brooklyn, NY

“Thanks to taking Advanced ResV Plus™, I have noticed a great improvement in my skin. It looks younger, softer, and feels great. My energy is way up. I have lost a few pounds and who wouldn't love that.”

—Mary H., Brookfield, WI

“My overall health seems to be better. I have more energy. I have vigor and vitality, daily. Even my outlook on everyday happenings seems to be more positive.”

—Victor D., Rome, NY

“As a certified Pharmacist Tech, I have seen many products over the years, but nothing on the same level as Advanced ResV Plus™. After the second month, my joints didn't seem as stiff in the mornings. It feels as if my circulation has improved. My energy has increased, and the eight to 11 hour days at work do not tire me out like they used to. I love this product. I wouldn't go without it.”

—Malcolm R., Warrenton, SC

“I have more energy. My skin is getting smoother and I'm getting a good nights sleep. I can walk longer. I've been eating all of my favorite foods, my memory is getting sharper, and I feel real good from head to toe. Thank you for a good product.”

—Ben M., Las Vegas, NV

groundbreaking discoveries:

Pterostilbene can help promote healthy cholesterol and fight off heart-related problems! In fact...

...In some animal studies—pterostilbene lowered cholesterol and triglycerides as well as popular lipid-regulating drugs on the market!

But with pterostilbene—you don't experience the nasty side effects of muscle aches and nausea you may normally get from these drugs! But there's more...

Dr. Rimando and research scientists at the University of Medical Science in Poznan, Poland showed pterostilbene can actually help keep your cells healthy—even more so than resveratrol!

They uncovered pterostilbene has the uncanny ability to inhibit an enzyme called "cytochrome P450." This is the nasty enzyme that activates a variety of compounds called "pro-carcinogens"—and turns cigarette smoke and pesticides into dangerous substances in your body.

Can you see why this is exciting news?

Pterostilbene can actually "TURN OFF" this cytochrome P450 gene switch—and safeguard your cells! And THAT'S not all...

...More research shows pterostilbene contains powerful, "fungicidal and blood sugar regulating properties—and showed potential to help lower blood glucose!" That's right—pterostilbene...

...Is a whopping **60 to 100 times** more effective than resveratrol as a fungicide and...

...Lowers blood glucose levels in subjects with high blood sugar by up to 42%!

These are incredible results!

When you combine the powerful effects of pterostilbene with the scientifically shown benefits of resveratrol—you can see why this DYNAMIC DUO is a MUST-HAVE for everyone over 40! And the great news is:

You get BOTH of these powerhouse sister nutrients in every serving of Advanced ResV Plus™! But it gets even better...

...With resveratrol and pterostilbene—you get the antioxidant support found naturally in the skin of red grapes—but here's where Advanced ResV Plus™ really becomes a TOTAL antioxidant formula:

You also get powerful benefits found in the seeds of the grapes too! That's because Advanced ResV Plus™ includes a potent amount of grape seed extract in every serving!

You probably know grape seed extract is hailed as a "miracle" for many health concerns. That's because grape seed extract contains powerful polyphenols—including Oligo meric Proanthocyanidins (OPCs) that help fight germs, allergens, and other dangerous substances.

Studies show the antioxidant power of polyphenols is 20 times more powerful than vitamin E—and a whopping 50 times greater than vitamin C! What's more...

...OPCs contain anti-inflammatory, anti-allergic, and anti-microbial activity! Plus, they keep your cells from premature aging! Yes—younger looking skin is just one of the "side effects" you can experience with grape seed extract! But that's not all...

BETTER blood pressure!

In one study, male and female patients diagnosed with metabolic syndrome all lowered their blood pressure when given grape seed extract.

The average drop in systolic pressure (upper number) was 12 mmHg—while the average drop in diastolic pressure (lower number) was 8 mmHg.

YOUNGER, healthier brain!

Your brain ages just like the rest of your body—causing important proteins to be lost and undesirable proteins to be gained. This can result in memory loss—and other age-related brain problems.

The good news is... scientists at the University of Alabama found that grape seed extract actually **reverses brain aging**.

It does this by normalizing 13 different brain proteins back to youthful levels—and reducing the undesirable proteins that interfere with your brain's ability to make new cells.

This helps your mind stay younger and sharper longer.

Strengthens varicose veins— and gives relief from hemorrhoids!

A number of clinical trials performed in France show the OPCs—found in grape seed extract—can **strengthen the walls of veins** and fragile capillaries that have become stretched and swollen. That's because grape seed extract can decrease enzyme attacks that weaken and destroy the collagen that make up your veins. What's more...

...These studies show good results using grape seed extract with sports injuries and fluid retention after surgery!

That's why Advanced ResV Plus™ includes grape seed extract to round out the TRIO of age-defying nutrients you get in every serving of Advanced ResV Plus™!

And that's why you can also experience DECADES of healthier living when you take Advanced ResV Plus™ each day!

Now you can try this amazing formula 100% RISK-FREE!

to pass on this
generous offer...

Who doesn't want to add DECADES of healthy years to their lives?

Dear Friend,

You have within your reach a scientifically-proven, all-natural way to help enhance... improve... and even lengthen your life.

No longer do you have to accept that heart problems... blood sugar imbalances... poor memory... low energy... and cholesterol troubles are a normal part of growing older.

You have the opportunity to join thousands of other people who've chosen to change the rules of aging so they can experience...

- Stronger, healthier cells...
- Robust heart health and energy...
- Minds as sharp as a tack...
- And longer, healthier lives!

Why wait when you have nothing to risk?

Please re-read the enclosed letter and say you'll accept the generous FREE Gifts and discounts I've offered to help you add many healthy years to your life.

Sincerely,

Layne Lowery

President, Health Resources™

Here are 7 Phenomenal Benefits of Resveratrol Found in Advanced ResV Plus™ ...

- 1 Supports your cell health!** Not only does resveratrol guard your cells against free radical damage, but it also helps eliminate sick cells—and helps keep healthy cells living longer and stronger!
- 2 Helps promote healthy cholesterol levels!** The powerful antioxidant properties in resveratrol help neutralize “bad” LDL cholesterol AND boost your levels of “good” HDL cholesterol. That’s a “win-win” for optimal cholesterol health!
- 3 Powerful natural hormone regulator!** A study from Nebraska University shows resveratrol increases the production of an enzyme that actually destroys dangerous estrogen metabolites. That helps you regulate estrogen levels naturally and also helps maintain healthy testosterone levels—whether you’re a man or a woman!
- 4 Safeguard your heart!** Resveratrol helps you boost cardiovascular performance and helps keep your heart beating stronger LONGER. Harvard studies prove it!
- 5 Helps UNDO the damages done to your body by smoking!** Resveratrol works to hinder the formation of dangerous ROS (reactive oxygen species) in cells—even if you’ve been a long-time smoker. So, if you’ve stopped smoking—CONGRATULATIONS! Now, help get your body back in optimal health with the resveratrol in Advanced ResV Plus™.
- 6 Anti-aging Godsend!** Powerful antioxidant properties help S-L-O-W the aging clock to a crawl. You feel better—and look younger!
- 7 Boost energy levels!** You recover faster after a sports workout... maintain healthy energy levels throughout the day... and feel alert even in the evenings!
