

How to Defeat FOUR Common “Old Age” Health Problems...

**So you can enjoy greater energy...
a stronger immune system... and healthier cells...**

**And look and feel YOUNGER
than you really are!**

Many people think growing old involves hobbling with a cane from one doctor appointment to another... napping often... and constantly forgetting where you put your car keys.

The truth is... “old age” health problems like high blood pressure and cholesterol... blood sugar imbalances... and forgetfulness don’t wait until you need a cane. They can hit you as early as your 40s—and make you grow old before your time.

But you don’t have to accept those “old age” health problems as inevitable.

In fact, you may already be experiencing greater energy... less sickness... sharper memory... and overall better health than your peers...

...Thanks to your decision to order your very own “fountain of youth” in a bottle—*Advanced ResV Plus™*!

**Your antidote to growing
too old—too fast**

The resveratrol in the *Advanced ResV Plus™* you’ve been taking has been proven by scientists

at Harvard University and the Mayo Clinic to extend the life of your healthy genes—and quickly eliminate the sick genes that trigger the aging process.

That’s because resveratrol is the compound that plants produce as a natural defense.

When a plant is under attack—either from environmental stress such as bad weather conditions... from insect and animal attack... or even from a plant blight—it releases resveratrol to fight off the attack and repair itself quickly.

And right now the resveratrol in *Advanced ResV Plus™* is doing the same thing for you!

When you’re under stress—instead of your cells breaking down and triggering the aging process—it’s coming to your rescue to help guard your cells from damage...

...And when you’re feeling sick, it “turns off” the damaged genes to keep them from spreading and ruining your health...

...So you can look and feel decades younger!

Advanced ResV Plus™ helps fight four common problems of aging—so you can stay younger and healthier LONGER

Doctors and scientists agree: As you grow older, your body's systems work less efficiently.

It's just a fact of life. And for the longest time, no one seemed to think you could do anything about it—until now...

The antioxidant powerhouse contained in *Advanced ResV Plus™* kicks your "survival gene" into overdrive—keeping your cells younger and healthier longer.

And just wait until you see what it does for these common "old age" health problems...

Old Age Problem #1: Your cardiovascular system becomes less efficient.

It starts sometime after age 30. Your heart muscle doesn't pump as vigorously... your blood vessels lose elasticity... and fatty deposits accumulate on your arteries' walls, narrowing the space for blood to flow through.

That means... your weakened heart muscle has to work harder than ever to pump the necessary volume of blood around your body. This can lead to high blood pressure—which can eventually trigger a heart or brain disaster.

It's a good thing you're taking *Advanced ResV Plus™*!

Clinical and animal studies have shown that resveratrol—one of the star nutrients in *Advanced ResV Plus™*—plays an important role in heart health...

- Japanese researchers found that it helps lower the cholesterol level in rats—and shows great promise of doing the same in humans...
- Researchers from *Israel Institute of Technology* found that it affects gene signaling in the cells in the lining of blood vessels—boosting

Folks Across America Old-Age Problems with

Here are a few of their grateful comments...

I Feel Great!

"I've only taken **Advanced ResV Plus™** for a short time, but I feel like a new person. I do my own housework and my own shopping. It's everything you say it is. This is from a 90 years old lady. I feel great."
—Mary C., Greenwood, MS

What an Energy Boost!

"I can feel my energy increasing. I had to have surgery and it sure didn't take long to recover."
—Gary E., Hardtner, KS

Works Wonders for My Nerves!

"After using **Advanced ResV Plus™**, I find that my nerves have settled down and I've not been as apprehensive. Also, I sleep better than I had been doing."
—Edsel P., Craigville, IN

Faster Recovery After Exercising!

"Although, I have only taken **Advanced ResV Plus™** for one month, my muscle soreness from workouts is minimized and I am better in less time. I have more energy and less fatigue. I am 62 years old."
—Beth P., Greenlawn, NY

healthy cardiovascular function.

- Other studies from the *University of Milan, Italy* and *Shanghai University of Traditional Chinese Medicine* showed that resveratrol may inhibit abnormal blood clotting by as much as 78.5%!

Even better, the addition of pterostilbene and grape seed extract to the *Advanced ResV Plus™* formula helps rev up its heart-helping power.

In some studies, pterostilbene lowered cholesterol and triglycerides just as well as the popular lipid-regulating drugs on the market!

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

We Both Feel Younger!

"We think **Advanced ResV Plus™** is a wonderful product. I am 87 years old. My husband is 90. It makes us feel younger and more able to do all the chores we need to do each day, and take care of ourselves in a better more healthful way."

—Wilma R., Pocatello, ID

Lost 14 Pounds!

"Since taking **Advanced ResV Plus™**, I definitely have more energy. I even joined a weight loss group and was able to lose 14 pounds. I do feel younger and I haven't had a cold all winter."

—Evelyn L., Hanson, MA

People Say I Look Younger!

"I've been using **Advanced ResV Plus™** for two months. I am 55 years old and have been told I look younger since I've been using your product. I think it's great."

—Reginald H., Coatesville, PA

Helped my Blood Sugar!

"I have a lot more energy. No sickness at all and normal blood sugar levels." —Maxine F., Kawkawlin, MI

Individual results may vary.

And other studies have shown that grape seed extract helps regulate blood pressure and strengthen the walls of veins and fragile capillaries.

Old Age Problem #2: Your metabolism tanks.

When you were young, you could eat anything you wanted all day long—and you didn't put on any weight.

Now all you have to do is look at a doughnut, and you're a pound heavier when you get on the scale.

What makes the difference?

Your metabolism.

As you age, your mitochondria—the "energy factories" in your cells that convert nutrients to power—slow down. And that causes your metabolism to do the same.

But that's not all. Your muscles also decrease in mass. Since muscle burns more energy than fat, less muscle means lower metabolism.

Fortunately, the resveratrol in *Advanced ResV Plus™* can "turn on" Sirtuin genes that help regulate the entire metabolic process in your body, boosting your metabolism.

And it can help you lose weight. A study conducted at *Harvard University* found that resveratrol helped overfed mice to stop gaining weight. The mice became fitter, healthier, and slowed down their aging process as a result!

Old Age Problem #3:

You're at greater risk for blood sugar problems.

As you age, your body's ability to use glucose (sugar) in the bloodstream declines. Add to that the weight gain and lack of mobility that are typical for many older people, and you have a recipe for blood sugar problems.

But it doesn't have to be that way for you.

The resveratrol you're getting in *Advanced ResV Plus™* helps metabolize glucose and encourage insulin balance in your cells.

And science has proved it.

Researchers at the *Chinese Academy of Sciences* in Shanghai fed resveratrol to insulin-resistant mice—and found that they became more insulin sensitive.

Test tube studies revealed the reason why... Resveratrol spurs a gene called SIRT1 to become more active—and that boosts insulin sensitivity.

Other research shows that the pterostilbene in *Advanced ResV Plus™* contains blood sugar regulating properties that show potential to help lower blood glucose.

In fact, studies found that pterostilbene lowers blood glucose levels in subjects with high blood sugar by up to 42%!

Old Age Problem #4:

You experience memory loss and embarrassing “senior moments.”

As you age, your brain goes through some important physical changes...

Brain weight and volume decreases—causing you to lose 5%-10% of your brain weight between the ages of 20 and 90...

The grooves on the surface of your brain widen, while the swellings on the surface become smaller, and...

Your neurons become damaged and begin to decay—and die.

As a result... your thinking processes become slower and less sharp—and your short-term memory becomes less efficient.

Thank goodness for the resveratrol in *Advanced ResV Plus™*! It's unique among antioxidants, because it can cross the blood-brain barrier to help support your brain and nervous system.

A recent study by researchers from *Northumbria University* in the U.K. discovered that resveratrol has a marked impact on increasing the blood flow to your brain—which can keep your brain function healthy.

But that's not all. Studies have also found that resveratrol helps...

- Improve brain plasticity by generating new neural networks...
- Reduce the normal rate of neurodegeneration, and...
- Increase brain oxygenation, which helps memory and cognition.

It's like turning back your biological clock—so you can age at a gentler, slower pace

Advanced ResV Plus™ can kick start your “survival gene” into action—so you can live longer and healthier. And it helps to do so much more...

Your brain literally gets smaller as you grow older!

- ✓ Repair damage to your DNA...
- ✓ Lengthen cell life...
- ✓ Eliminate damaged cells—before they can make you sick...
- ✓ Promote a healthy cardiovascular system...
- ✓ Regulate blood sugar levels...
- ✓ Maintain healthy cholesterol levels...
- ✓ Keep your mind and memory sharper!

How you can get these powerful age-defying results in your life

The medical experts and nutritional scientists behind *Advanced ResV Plus™* report that you can get the best results by...

1. Taking *Advanced ResV Plus™* as recommended—one capsule daily
2. Taking it on a regular basis
3. Eating a healthy diet
4. Exercising regularly
