

I'd Like to Give You FULL ACCESS to the National Institute for Cannabis Investors

Marijuana Millionaire's Vault...

**The Most Comprehensive and Lucrative Database of
Cannabis Companies on the Planet**

***Use this one-of-a-kind stock screener RIGHT NOW to double...
triple... or even quadruple your profit potential***

Hi, it's Mike Ward...

Co-founder of the *National Institute of Cannabis Investors*.

I want to take your investing to the next level...

And give you *more* opportunities to grow your money even *faster*.

That's why I'm contacting you today.

**I'd like to give you FULL ACCESS to the enormous wealth potential
hidden inside "The Marijuana Millionaire's Vault."**

That's what we call our extensive and proprietary cannabis stock database... the only one of its kind in the world.

It contains *everything* you would ever want to know about *EVERY* publicly traded cannabis company in North America, including...

- ✓ Company names and business overviews...
- ✓ Financials and business plans...
- ✓ Revenue and share price forecasts...
- ✓ Shares outstanding...
- ✓ Diluted shares outstanding...
- ✓ Equity market value... and much, much more.

Over 100 cannabis companies currently exist in this database – and it's growing larger every day.

Each company is fully analyzed by some of the world's top cannabis experts and rated on a scale of 1 to 5.

If a company is given a 5, our research has shown it's a strong buy that could potentially make you a boatload of money.

If it's a 1, the company is simply too risky of an investment at this time.

With this unique rating system, you can know *with just a glance* the companies to target for the biggest potential profits – and which ones to avoid.

And it's not just the publicly traded companies.

The Vault also contains the most promising new startups... companies our research suggests could become the next breakout company of the cannabis industry.

Plus, you'll also be kept in the loop on cannabis IPOs that have the potential to give you the biggest paydays you'll ever see in your life.

In short...

It's the most comprehensive database of cannabis stocks in existence, bar none.

To build this invaluable database, our team uses a proprietary analytic system we call NICILytics.

NICILytics digs deep and leaves no stone unturned.

Every piece of data on every cannabis company in North America – whether it's share counts, market caps, revenue potential, or stock forecasts – is all meticulously presented and analyzed.

That puts everything you need to know about hundreds of pot stocks right at your fingertips... and the database is growing all the time.

If there's a buyout or a merger... if a cannabis company IPOs... if an upcoming catalyst is poised to potentially shoot a company's stock through the roof... **you will find out about it here.**

Everything – even the smallest of details – is recorded in this one-of-a-kind database and fully vetted by our experts.

Simply put...

The Marijuana Millionaire's Vault holds *everything* you need to help you get the jump on other investors... and potentially make an absolute fortune.

For example, our experts recently completed an in-depth analysis on Acreage Holdings – which has one of the most diverse portfolios of cultivation, processing, and dispensing operations in the United States.

This company doesn't just boast having former Speaker of the House John Boehner on its board of advisors. It also has...

- Cultivation operations in nine states (four of which have legalized recreational marijuana)...
- 22 dispensaries in 10 states...
- And a diverse brand portfolio – offering products that appeal to new and experienced cannabis users alike.

But here’s what convinced us to give Acreage one of our strongest ratings...

Not only is it planning to more than triple its number of dispensaries by 2020 – for a total of 78 dispensaries throughout 19 states...

But it’s also working on a fourfold expansion of its cultivation space in 2019 that would increase capacity in each region it has operations.

These two facts alone could cause Acreage Holdings’ revenues to explode – and send its stock price right through the roof.

Had you known this, you could have targeted this company. And you could have already seen 89.77% gains – nearly *doubling* your investment *in as little as three weeks*.

You could also have cashed out on all of these cannabis winners...

International Cannabis Corp.	96.00%
Hexo Corp.	68.79%
Green Thumb Industries	67.12%
Canopy Growth Corp.	65.90%
Cresco Labs	57.37%
Trulieve Cannabis Corp.	56.57%
KushCo Holdings Inc.	52.49%

Many of these gains came in as little as 11 to 30 days!

Every one of these stocks is listed in The Vault, and every one of them has been given high marks by our experts.

But let me be clear...

**Such detailed, rigorously vetted information on cannabis companies
CANNOT be found anywhere else.**

You won’t get data like this from ***Bloomberg***, which costs thousands per month.

And you certainly won’t see it on free sites like Yahoo!

We know, because we’ve looked.

When the *National Institute for Cannabis Investors* team started to search for the best cannabis companies in the world to recommend to our subscribers, we were shocked at the poor quality of data available.

We're not talking about complicated stuff here.

Even basic information like the company's name, its lines of business, and its number of shares was just wrong on every platform we looked at.

You wouldn't want to ride on an airplane where the pilot has been given the wrong coordinates, would you?

So why would you want to invest in a stock based on the wrong information?

The Marijuana Millionaire's Vault makes it easy to pinpoint the likely winners... and maximize your profit potential.

All of the cannabis companies in our database have undergone our comprehensive vetting process and analysis.

Everything you could possibly need to know to reach a potentially profitable investment decision is right at your fingertips.

Looking for a specific company? Just type in the name and hit search.

Want to see all the cannabis tech stocks, or the medical firms, or the up-and-coming brands? Just sort the database by market sector.

Prefer to find just the best of the best? Simply sort by rating to pull up every company we've rated a 4 or a 5... the ones our research has spotlighted as the best buys.

Any one of these companies could be your next double-, triple-, or quadruple-digit winner.

Take Green Growth Brands, for example.

It's a licensed retail, cultivation, manufacturing, and processing operation for medical and recreational marijuana out of Nevada.

And our research shows... this company is doing just about everything right.

Not only has it used its retail partnerships... cannabis dispensaries... and 12,000-square-foot cultivation and processing facility to establish a solid foundation in Nevada...

But it's also steadily growing with the launch of new CBD products and plans to expand cultivation and processing operations with a 200,000-square-foot greenhouse.

That's why we've given Green Growth Brands one of our strongest ratings.

If you had access to this information in The Vault, you could have jumped on board when this company's stock was selling for a mere \$2.70 a share...

And pocketed gains of as much as **129.63%** *in as little as 40 days*.

That's enough to turn a modest \$5,000 investment into \$11,482 in about a month!

Your exclusive access to the Marijuana Millionaire's Vault can help you discover breakout companies like Acreage and Green Growth Brands – and potentially profit on them – before anyone else.

You'll get the edge you need to help yourself capitalize on this historic opportunity... get in on the ground floor of our most lucrative industry... and chart a path that could possibly turn you into a marijuana millionaire.

Complete, unrestricted access to this gold mine of cannabis stock data is yours FREE for a LIFETIME...

When you accept my invitation today to become a member of the ***Cannabis Investor's Report ELITE***.

Cannabis is already a \$10.8 billion-a-year industry. And that's with only a fraction of U.S. states on board with legalized marijuana.

As more states – and eventually, the federal government itself – jump on the cannabis band wagon, it could easily explode to \$100 billion and quite possibly \$1 trillion.

If you can beat other investors to the punch, you could make an absolute fortune.

The time to strike is now...

That's why we created the ***Cannabis Investor's Report ELITE***.

We've assembled the most successful cannabis CEOs, investors, and politically-connected players in modern history for our advisory board...

- **Danny Brody** – One of the world's foremost authorities on the cannabis market who has taken two cannabis firms public – generating more than \$2.2 billion in new wealth for investors. (One of them was the largest cannabis IPO in history.) He currently serves as the VP of The Green Organic Dutchman.
- **John Vardaman** – The former senior lawyer with the Department of Justice who served under both Presidents Bush and Obama and helped draft the Cole Memo – which protects marijuana-legal states from federal scrutiny.
- **Dr. Avtar Dhillon** – The Chairman of the Canada Cannabis Association and former CEO of Inovio Pharmaceuticals – with more than 20 years of experience in building public companies through mergers and acquisitions.
- **Jenn Larry** – The President of CBD Strategy Group – a communications, brand development, and design-focused firm built for the cannabis industry.

- **Dr. Michael Dor** – A graduate of Tel Aviv University and Harvard who now serves as the senior advisor on cannabis research for the Israeli Ministry of Health.
- **Michael Robinson** – A leading Silicon Valley venture capital expert who has served on the board of one major VC firm and advised 12 tech startups. Along with venture capital, his specialty is cannabis technology investing.
- **Ernie Tremblay** – One of America’s leading biotech investment experts – with more than 25 years of experience following and analyzing the latest developments in health, medicine, and related technologies. For the last five years, he’s devoted countless hours and research to studying the curative properties of cannabis.

For the first time ever, this “who’s who” of the cannabis industry has joined forces.

Our sole mission is to help transform you into a marijuana millionaire!

We’re going to leverage our board members’ intelligence gathering... their business connections... and their political connections...

To keep you informed about coming catalysts, IPOs, and mergers.

Every time there’s an opportunity to make big money in the cannabis industry, you’ll hear about it *first*, before the rest of the world gets clued in.

As I mentioned earlier, all of our research – everything we discover about cannabis companies – is carefully stored in the **Marijuana Millionaire’s Vault**.

When you become a **Cannabis Investor’s Report ELITE** member, this one-of-a-kind, comprehensive stock database will always be right at your fingertips. Just a simple search for our best-rated companies could be all you need to start earning your marijuana millions.

But we can do even better than that.

We’re going to help you hit the ground running...

As Soon as You Fill Out the Form Below, You’ll Be Rushed Four Special Investment Reports

Each one of these reports focuses on an investment opportunity with the potential to make you very rich...

- **Special Report #1: Prescription-Free CBD: The Firm Set to Disrupt the \$1.1 Trillion Pharmaceutical Industry**

Studies have shown that the CBD component in cannabis is an effective treatment for chronic pain... epileptic seizures... and so much more.

The nearly endless medical applications are spurring the CBD market to grow as much as 3,667% over

the next five years. And the firm we identify in this special report is set to capture the lion's share of the market.

- **Special Report #2: *The Innovator: A Simple Solution for a Big-Dollar Problem***

When this cannabis tech company came up with a simple solution to a big problem, its sales skyrocketed – triggering 30-fold growth in just four years.

Considering this is a multibillion-dollar market, this company is still tiny. So, there's still time to cash in on potentially huge gains. We'll show you how.

- **Special Report #3: *Cannabis's First Household Name Could Make You a Fortune***

Brands are the future of cannabis. And the company targeted in this report has found a unique way to build its brand without traditional advertising (which isn't an option for cannabis products).

It's worked so well, sales have multiplied 19 times over the past two years. As this company continues to build brand recognition, we expect both revenues and stock price to substantially increase – delivering possibly huge windfalls to investors.

- **Special Report #4: *The #1 Cannabis Startup to Target Today***

Angel investing in privately-held startups is highly speculative. But it can also be highly lucrative. A small investment in the right startup could earn you a fortune.

Just look at Uber's unprecedented 30,000-fold return. If you had invested a mere \$100 when Uber was just getting started, you'd be looking at a cool \$3 million right now.

In this special report, we'll show you all the ins and outs of angel investing in cannabis startups. Plus, we'll give you the details of a unique opportunity already locked and loaded for you.

But this is only the beginning...

We're also going to send you a Cannabis Investment Package every month – for the rest of your life.

It could contain details on a firm with a breakthrough CBD treatment... a new cannabis tech play... or an emerging billion-dollar brand.

It'll be a different opportunity every month. But here's what you can count on...

Every cannabis stock we'll bring you *has the potential to deliver a 1,000%+ windfall.*

As a **Cannabis Investor's Report ELITE** member, you'll receive all of our research and analysis – PLUS, a **Video Investor Presentation** to guide you through every chart, all the financials, and our projections for future returns.

And if you choose to invest, you just have to follow our streamlined set of instructions.

We'll be by your side as each opportunity develops...

- Our proprietary **Portfolio Tracker** will monitor their growth.
- Our **Weekly Progress Reports** will cover every new development, merger, and acquisition.
- Our **Real-Time Profit Alerts** will notify you when it's time to cash out of any of our cannabis plays.

Plus, every quarter we'll mail you a comprehensive **State of the Cannabis Industry Dossier**. It will give you a complete forecast for each segment of the industry.

Your **Cannabis Investor's Report ELITE** membership also gives you...

An opportunity to score BIG with the *smallest* cannabis stocks... with our monthly Micro-Cap Stock Videos.

Some investors are afraid of micro-cap stocks, but *you* don't have to be.

Yes, they're the smallest publicly traded companies out there. And they do tend to be riskier and more volatile.

You certainly shouldn't bet the farm on them. But smart investors know...

These are the companies that can give you the biggest paydays.

Take a micro-cap company like Global Hemp Group.

In July of 2017, they were trading as low as 1.3 cents per share.

That means you could have bought 38,461 shares for just \$500 – which is a huge stake for such a small sum of cash.

And if you held on to those shares for just five months, they would have shot up to peak gains of 2,330%.

That's enough to turn your small \$500 investment into \$12,154!

Or look at Supreme Cannabis.

They started out as a tiny micro cap – trading for just over five cents per share...

So you could have claimed 10,000 shares for the same \$500.

And if you had, it would have rewarded you extremely well. Because Supreme Cannabis leapt up to peak gains of 4,855%.

That would have transformed your \$500 into an impressive \$24,778.

But that's not even the best you can do.

Take OWC Pharmaceuticals.

In July of 2016, this micro-cap was trading for just 1.5 cents a share.

So, if you once again decided to invest just \$500 at that price, you would own more than 33,000 shares.

And over the seven months that followed, those shares would have rocketed up to a peak gain of 21,433%!

That \$500 stake in OWC could have turned into \$107,667.

This is exceptional and certainly rare. But the fact is...

The only place you can turn \$500 into over \$100,000 is with micro-cap stocks like these.

And now with a Lifetime membership to *Cannabis Investor's Report ELITE*, you'll be introduced to one of these potentially huge moneymakers every month... for the rest of your life.

You can unlock even more wealth-building opportunities in the Cannabis Investors Network.

Our board members and experts are very active in this network.
